SPLOR

Hooray!

After two issues made using a photocopier with enlargement and reduction, scotch tape, and a pen, I'm finally editing the publication using a computer and Microsoft Publisher.

I also built a website for this publication. It's still a work in progress, but I hope you like how it looks!

### Shape Up

Every row and column in this grid originally contained one heart, one club, one diamond, one spade, and two blank squares, although not necessarily in that order.

Every symbol with a black arrow refers to the first of the four symbols encountered when looking in the direction of the arrow.

Every symbol with a white arrow refers to the second of the four symbols encountered in the direction of the arrow.

Can you complete the original grid?
